Astell 

## Meant for Medical Accessories

The Astell Scientific range of 'Closed Door Drying' benchtop autoclaves are designed to offer convenience and flexibility in the sterilization of wrapped and unwrapped instruments.

### 33 - 63 LITRE BENCHTOP AUTOCLAVES WITH DRYING

Suitable for use in Dental and Veterinary clinics, these units offer sterilization for instruments and glassware with the added benefit of hot air drying.

Instruments for sterilization could include wrapped and unwrapped metal surgical instruments, unwrapped glassware and pouched hand tools.
