

WHEATON® CENTRIFUGE TUBES

Ideal for standard laboratory sample management
and centrifugation needs.

DWK LIFE SCIENCES
DURAN WHEATON KIMBLE

WHEATON® POLYPROPYLENE TUBES ARE IDEAL FOR STANDARD LABORATORY CENTRIFUGATION NEEDS.

Manufactured from ultra-clear virgin polypropylene, the **WHEATON®** Centrifuge Tube range meets the needs of most laboratory users for routine centrifugation applications. Available in sizes 15ml and 50ml, with a leak-free cap and large writing area, they are ideal for a wide range of sample handling applications.

CENTRIFUGE TUBE FEATURES

- Manufactured from virgin ultra-clear polypropylene for good sample visibility
- Flat cap design:
 - Offers excellent leak-free performance
 - Easy to write on and mark samples
- Solvent-resistant printed graduations with large white marking strip for labelling
- RCF values up to 9500xg
- Non-pyrogenic to < 0.25 EU/mL
- RNase and DNase free
- Packaging options:
 - Packed in a polystyrene rack
 - Bulk packed in a peel open-bag
- Supplied sterile
- Easy to handle with gloved hands
