Corning® Stripettor™ Plus Pipetting Controller

The new Corning Stripettor Plus is comfortable, lightweight, and designed for use with most brands of serological pipets. Speed range is adjustable via a control wheel on the back of the instrument, and aspirating and dispensing can be finely controlled by the pressure-sensitive buttons. A convenient wall hanger, charging stand, and spare filters are included with the Stripettor Plus, and when fully charged, the high capacity Lithium-Ion battery allows continuous pipetting for up to 4.5 hours. A battery indicator light lets the user know when it's time to recharge; the Stripettor Plus can be used while charging. The charging stand allows storage on its back, even with pipet inserted.
