Chromatography: Autosampler Vials

225659

225661

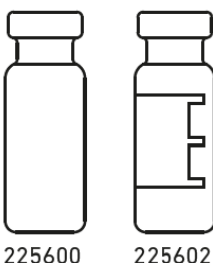

225660

225662

Screw Neck Vials 12 x 32 mm (1.5ml), Blue Cap

- Short threaded ND9 vials can be used on almost all autosamplers. They have a 40% larger opening, which improves sample accessibility and reduces the risk of autosampler needle damage.
- Use solid top closures for long-term sample storage applications.
- Optional white ceramic writing patch and fill marks for easy labelling.
- Made from borosilicate glass conforming to USP Type I and ASTM E438, Type I, Class B requirements.

225601

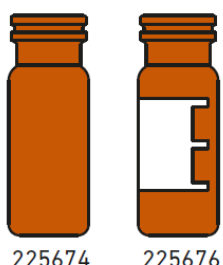

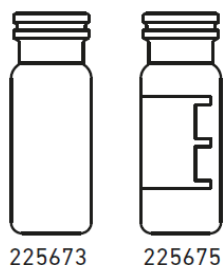

225603

Crimp Top Vials 12 x 32 mm (1.5ml), Aluminium Cap

- Standard vials for GC and HPLC applications.
- Crimp top vials provide an excellent seal for long term sample storage and analyses involving high volatile solvents.
- 40% larger opening improves sample accessibility and reduces the risk of autosampler needle damage.
- Optional white ceramic writing patch and fill marks for easy labelling.
- Made from borosilicate glass conforming to USP Type I and ASTM E438, Type I, Class B requirements.

Chromatography: Autosampler Vials

Snap Ring Vials 12 x 32 mm (1.5ml), Clear PP Cap

- Recommended for HPLC applications, only.
- Snap ring vials eliminate the need for crimping and decapping tools.
- Use snap caps or 11 mm aluminium seals.
- 40% larger opening improves sample accessibility and reduces the risk of autosampler needle damage.
- Optional white ceramic writing patch and fill marks for easy labelling.
- Made from borosilicate glass conforming to USP Type I and ASTM E438, Type I, Class B requirements.
- Safety Note: Snap ring vials cannot be pressurized!

WHEATON® Vial Rack

GCV-985800

- Manufactured from polypropylene.
- Easy to clean and autoclavable.
- Alphanumeric indexing indicated on rack.
- The racks are sturdy and stackable, even when the vials are in place.
- Each well has an opening in the bottom to facilitate drainage.
- Note: When selecting the proper rack, the vial OD cannot exceed the well ID dimension.

Reference	Description	Well ID (mm)	Dimensions (L x W x H) (mm)	Std/Pack	Price/Pack (RM)
GCV-985800	50-Position Rack	12.5	190 x 100 x 22	5	761.00

GCV-868806	50-Position Rack	28.1	330 x 170 x 30	5	1,273.00

VIAL PACKAGING

All DWK Life Sciences chromatography vials are packed in re-closable, dust- and fiber-free PP boxes. The lower part of the box is shrinkwrapped to provide tamper evidence and to protect the vials against contamination during transportation and storage. Batch numbers on every box allow for 100% traceability.

20mL Scintillation Vial with Urea Cap and PE Cone Liner

- For scintillation counting and standard storage applications.
- Packaged in convenient utility trays, for easy sample storage.
- Urea caps with PE cone liner offer superior torque retention and excellent sealing characteristics.
- Made from borosilicate glass conforming to USP Type I and ASTM E438, Type I, Class A requirements.

E-C Sample Vials Convenience Pack

- Clear vials made from low extractable borosilicate glass that provides superior chemical resistance.
- Clear vials conform to USP Type I and ASTM E 438 Type I, Class A requirements.
- Amber vials made from borosilicate glass that conforms to USP Type I requirements for light transmission to protect light-sensitive products.
- 14B rubber lined black phenolic screw cap for aqueous samples.
- PTFE-faced 14B rubber lined black phenolic screw cap for organic samples.
- Vials and caps are autoclavable.

What certification is available for DWK Life Sciences chromatography vials?

A batch-specific certificate of conformity for all items from the DWK Life Sciences chromatography vial line can be handed out on request. To obtain your certificate, please provide the item number of your product together with the batch number printed on the product label to sales@ksfe.com.my

GCV-W225303

E-Z Crimpers & Decappers

WHEATON® Crimpers and Decappers are an ideal supplement to our crimp neck and snap ring vials. The E-Z Crimper™ and E-Z Decapper™ allow for easy manual attachment and removal of aluminium seals to all vials with crimp finish.

- Cushioned ergonomic handle reduces hand fatigue.
- Polished crimping jaws provide consistent sealing.

Brand	Reference	Description	Std/Pack	Price/Pack (RM)

Automatic Crimping Tools (Battery Powered)

WHEATON® Our automatic crimping tools provide secure, reproducible crimps and quick removal of aluminium seals to and from all vials with crimp finish. The tools are ergonomically designed to reduce strain and arm injury associated with many manual crimping tools.

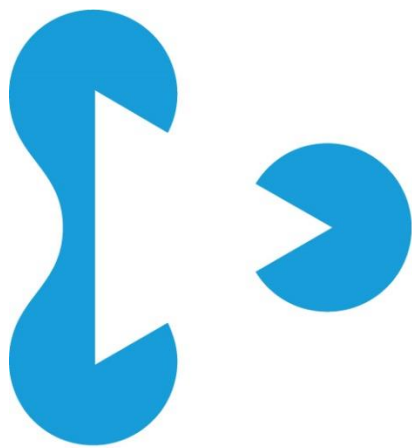

The battery powered unit comes with a long lasting battery with lithium ion technology, which allows for up to 800 crimps per charge. A warning light indicates when recharging is necessary. The tool can be recharged in one to two hours with the universal power supply included. The power supply includes a plug set for operation in most countries. The unit can be operated while charging.
